

Type II Diabetics

ke¹⁰
DIET

reduce or get off your medications*

The KE Diet®

- Physician supervised
- No drugs, no surgery, no hunger
- Burn your fat for energy
- Proven safe and effective weight loss of 1 to 2 pounds per day for 10 days
- Sustained post-diet weight loss by following a low carbohydrate lifestyle
- Multiple health benefits provided by maintained nutritional ketosis

“I was waiting to die. Now I can plan for a future.”

With our help, Deb was able to:

- Decrease HgbA1c from 8.1 to 6.9
- Walk without a cane & exercise regularly
- Eliminated need for insulin
- Improve hypertension and dyslipidemia

TELL YOUR DIABETIC TYPE II RELATIVES AND FRIENDS

“you may be insulin free in 30 days!”*
